

**Re: Reference Letter for Clement Lim**

Dear Madame/Sir,

I had the pleasure of working with Clement Lim from January to April of 2007. Clement worked for Metalogix Software as a co-op Software Developer, reporting directly to me in my capacity of Director of Professional Services.

When Clement asked me to write a letter of reference on his behalf I agreed to do so without hesitation. Clement is the kind of employee that is an asset to any team that he joins. He is hard working, cheerful, adaptable and a fast learner. As a result, Clement is able to leverage existing abilities, and pick up whatever new skills necessary to make meaningful contributions to any software development project.

In addition, Clement is an excellent communicator. In his time with Metalogix, he was tasked with producing comprehensive documentation for a software product that he assisted in developing. This effort required both technical acumen and good writing skills. He successfully completed the documentation on time with only minimal guidance and we were very pleased with the final results.

I am pleased to recommend Clement to any endeavour in the field of Computer Science to which he chooses to apply himself.

Sincerely,

Geordie Henderson,  
Director of Professional Services  
Metalogix Software
